

# Full Load

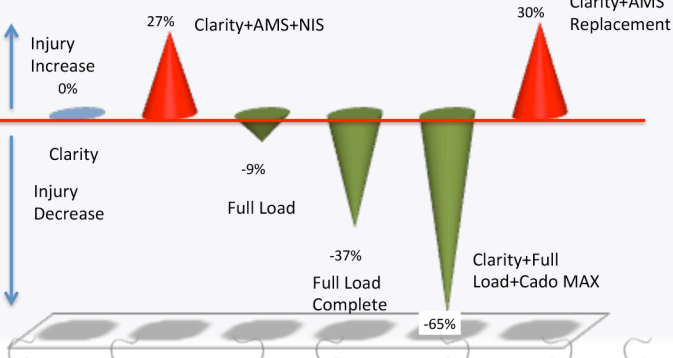

# COMPLETE

- Replaces AMS
- Fully Loaded Surfactant
- Drift Reduction
- Volatility Reduction
- Hard Water Conditioner
- Contains Glyphosate's Favorite Surfactant

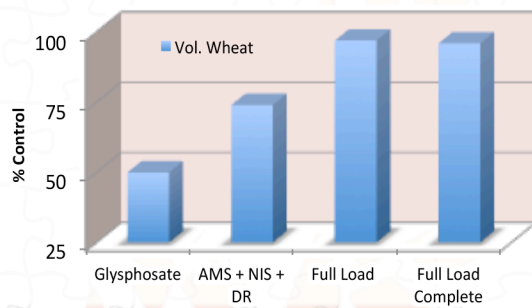

Full Load Complete is designed to maximize the performance of negatively charged herbicides. Full Load Complete is the perfect adjuvant for most *Post Applied Herbicides* such as: 2,4-Damine, Dicamba, mecoprop picloram, imazamox, glufosinate and glyphosate.

## Volatility Comparison

Percent Increase or Decrease in the Amount of Volatility Injury Caused by Dicamba Vapor from Various Treatments.

Control of Volunteer Wheat with Glyphosate Applied Alone and with Tank Additives. Full Load Complete 2qts./100, Full Load 2qts/100 and Drift Reduction agent + AMS 17lbs/100 + NIS 2qts/100.

170 Pounds Dry AMS

=

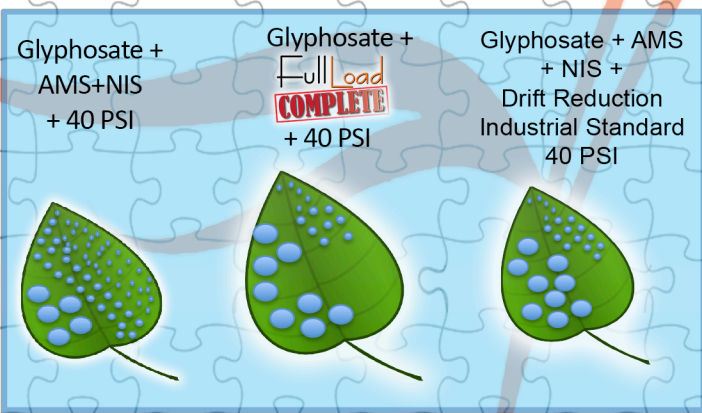

**Max Performance**  
**Max Ease**  
**Better Price**

*All in One Jug!*

## Deposition and Drift

● Super Fines    ● Fines    ● Low Drift Potential

## Compatible Herbicides

### Hard Water Sensitive Herbicides

2,4-D	Sethoxydim
Dichlorprop	Clethodim
MCPA	Tralkoxydim
Mecoprop (MCP)	Imazamethbenz
Dicamba	Imazapyr
Picloram	Imazaquin
Triclopyr	Imazamox
Clopyralid	Imazethapyr
Quinclorac	Glufosinate
Paraquat	Glyphosate
	Diaquat
